The New British Politics

Foundations of Public Law offers an account of the formation of the discipline of public law with a view to identifying its essential character, explaining its particular modes of operation, and specifying its unique task. Building on the framework first outlined in The Idea of Public Law (OUP, 2003), the book conceives public law broadly as a type of law that comes into existence as a consequence of the secularization, rationalization and positivization of the medieval idea of fundamental law. Formed as a result of the changes that give birth to the modern state, public law establishes the authority and legitimacy of modern governmental ordering. Public law today is a universal phenomenon, but its origins are European. Part I of the book examines the conditions of its formation, showing how much the concept borrowed from the refined debates of medieval jurists. Part II then examines the nature of public law. Drawing on a line of juristic inquiry that developed from the late sixteenth to the early nineteenth centuries-extending from Bodin, Althusius, Lipsius, Grotius, Hobbes, Spinoza, Locke and Pufendorf to the later works of Montesquieu, Rousseau, Kant, Fichte, Smith and Hegel-it presents an account of public law as a special type of political reason. The remaining three Parts unpack the core elements of this concept: state, constitution, and government. By taking this broad approach to the subject, Professor Loughlin shows how, rather than being viewed as a limitation on power, law is better conceived as a means by which public power is generated. And by explaining the way that these core elements of state, constitution, and government were shaped respectively by the technological, bourgeois, and disciplinary revolutions of the sixteenth century through to the nineteenth century, he reveals a concept of public law of considerable ambiguity, complexity and resilience.

The Evolving Presidency

From the ancient beginnings of Western legal tradition, law has been conceived as traversed by a fundamental tension between power (will) and reason. This volume examines the tension between these two poles, 'ratio and voluntas' in modern law. Part I focuses on three instructive phases in the history of the law's ratio. Part II examines the way legal scholarship, especially doctrinal research (legal dogmatics), can and should contribute to the law's coherence. Part III explores the role of constitutional law in managing the tension between law's voluntas and ratio. The final chapter discusses the implications the growth of transnational law may have on the relationship between ratio and voluntas. The study builds on the views of the distinctive features of the ideal-typical mature modern legal system as presented in the author's previous work, Critical Legal Positivism (Ashgate 2002).
MacCormick's Scotland

By analyzing the perspectives and influential decisions of individual justices on the Rehnquist Court (1986-2005), this volume reveals how a divided Supreme Court limited the scope of rights affecting criminal justice without fulfilling conservatives' goal of eliminating foundational concepts established during the Warren Court era. The era's generally conservative Supreme Court preserved rights in several contexts because individual justices do not necessarily view all constitutional rights issues through a simple, consistent philosophical lens.

The Changing Constitution

This book analyses in depth the distinctively Scottish themes in the work of Sir Neil MacCormick, the world-renowned legal philosopher and prominent Scottish public intellectual who died in 2009 after holding the Regius Chair in Public Law and the Law of Nature and Nations at Edinburgh University for 36 years. MacCormick's work, and works about MacCormick, attract both a domestic and an international audience. Readers will gain an understanding of how MacCormick's Scottish roots, interests and commitments coloured his work - both his distinctively Scottish writings and the overall intellectual outlook that informed his broader legal and philosophical writings. The book provides a well rounded appreciation of the Scottish dimension in MacCormick's thinking and writing. It focuses on a number of prominent Scottish themes in MacCormick's work and life and is structured around four key themes: 1) the nature and identity of a legal system; 2) sovereignty, European integration and Scottish independence; 3) the legacy of the legal and political thought of the Scottish enlightenment; and 4) the role of the academic in the Scottish public sphere.

The Whole Works of Dr. Thomas Sydenham The Sixth Edition, Corrected by John Pechey

Cases and Materials on Constitutional and Administrative Law

Sechs Bücher über den Staat

Constitutional and administrative law (public law) is an essential element of all law degrees. Unlocking Constitutional and Administrative Law will ensure that you grasp the main concepts with ease, while giving you an indispensable foundation in the subject. This revised fourth edition is fully up to date with the latest key changes in the law and constitutional developments. The UNLOCKING THE LAW series is designed specifically to make the law accessible. Each chapter contains: aims and objectives; activities such as self-test questions; charts of key facts to consolidate your knowledge; diagrams to aid memory and understanding; prominently displayed cases and judgments; chapter summaries; a glossary of legal terminology; essay questions with answer plans. The series covers all the core subjects required by the Bar Council and the Law Society for entry onto professional qualifications as well as popular option units.

The Changing Constitution of the United Nations

This book analyses unamendability in democratic constitutionalism and engages critically and systematically with its perils, offering a much-needed corrective to existing understandings of this phenomenon. Whether formalized in the constitutional text or developed as part of judicial doctrines of implicit unamendability, eternity clauses raise fundamental questions about the core democratic commitments underpinning any given constitution. The book takes seriously the democratic challenge eternity clauses pose and argues that this goes beyond the old tension between constitutionalism and democracy. Instead, eternity clauses reveal themselves to be a far more ambivalent constitutional mechanism, one with greater and more insidious potential for abuse than has been recognized. The 'dark side' of unamendability includes its propensity to insulate majoritarian, exclusionary, and internally incoherent values, as well as its sometimes purely pragmatic role in elite bargaining. The
Where To Download The Changing Constitution 6th Edition

book adopts a contextual approach and brings to the fore a variety of case studies from non-traditional jurisdictions. These insights from the periphery illuminate the prospects of unamendability fulfilling its intended aims - protecting constitutional democracy foremost among them. With its promise most appealing in transitional, post-conflict, and fragile democracies, unamendability reveals itself, counterintuitively, to be both less potent and potentially more dangerous in precisely these contexts. The book also places the rise of eternity clauses in the context of other significant trends in recent constitutional practice: the transnational embeddedness of constitution-making and of constitutional adjudication; the rise of popular participation in constitutional reform processes; and the ongoing crisis of democratic backsliding in liberal democracies.

Centralized Enforcement, Legitimacy and Good Governance in the EU

Legal scholars and authorities generally agree that the law should be obeyed and should apply equally to all those subject to it, without favour or discrimination. Yet it is possible to see that in any legal system there will be situations when strict application of the law will produce undesirable results, such as injustice or other consequences not intended by the law as framed. In such circumstances the law may be changed but there may be broad policy reasons not to do so. The allied concepts of dispensation and economy grew up in the western and eastern traditions of the Christian church as mechanisms whereby an individual or a class of people could, by authority, be excused from obligations under a particular law in particular circumstances without that law being changed. This book uncovers and explores this neglected area of church life and law. Will Adam argues that dispensing power and authority exist in various guises in the systems of different churches. Codified and understood in Roman Catholic and Orthodox canon law, this arouses suspicion in the Church of England and in English law in general. The book demonstrates that legal flexibility can be found in English law and is integral to the law of the Church, to enable the Church today better to fulfil its mission in the world.

Catalogue of the Library of the Department of Justice, to September 1, 1904

The American Supreme Court, Sixth Edition

Named a 2013 Doody's Essential Purchase! The sixth edition of Nursing Home Administration contains essential information to prepare an individual for licensure and employment as a nursing home administrator. This book addresses all regulatory pieces of information to provide readers with an overview of the entire process of managing a nursing facility. This edition has been updated to reflect the most accurate and up-to-date information to reflect new legislation and regulations passed since previous edition in 2008. This textbook serves as a roadmap for studying and understanding all the various requirements-management, human resources, finance and business, industry laws and regulations, and patient care. It demonstrates how all components fit together to form the coordinated activity set required of a successful nursing home administrator. Key Features: Formatted according to licensing examination and guidelines of the National Association of Boards of Examiners of Nursing Home Administrators New federal guidelines to surveyors New resident assessment instrument Updated figures and tables New life safety code inspection processes New ICDM-10 (International Classification of Diseases-Modified) Sub-set of federal forms included in appendices Web references to enable the reader to successfully navigate the nursing home administration field

Unlocking Constitutional and Administrative Law
Constitutional Law for a Changing America

The Routledge Companion to the Philosophy of Law provides a comprehensive, non-technical philosophical treatment of the fundamental questions about the nature of law. Its coverage includes law’s relation to morality and the moral obligations to obey the law, the main philosophical debates about particular legal areas such as criminal responsibility, property, contracts, family law, law and justice in the international domain, legal paternalism and the rule of law. The entirely new content has been written specifically for newcomers to the field, making the volume particularly useful for undergraduate and graduate courses in philosophy of law and related areas. All 39 chapters, written by the world’s leading researchers and edited by an internationally distinguished scholar, bring a focused, philosophical perspective to their subjects. The Routledge Companion to the Philosophy of Law promises to be a valuable and much consulted student resource for many years.

Idaho Codes Annotated: Political code

For more than fifty years, Robert G. McCloskey’s classic work on the Supreme Court’s role in constructing the US Constitution has introduced generations of students to the workings of our nation’s highest court. As in prior editions, McCloskey’s original text remains unchanged. In his historical interpretation, he argues that the strength of the Court has always been its sensitivity to the changing political scene, as well as its reluctance to stray too far from the main currents of public sentiment. In this new edition, Sanford Levinson extends McCloskey’s magisterial treatment to address developments since the 2010 election, including the Supreme Court’s decisions regarding the Defense of Marriage Act, the Affordable Care Act, and gay marriage. The best and most concise account of the Supreme Court and its place in American politics, McCloskey’s wonderfully readable book is an essential guide to the past, present, and future prospects of this institution.

Foundations of Public Law

Citizens of the United States are wont to think of their form of government, a political system based on a written constitution, as something fixed and stable. In reality, it is undergoing a profound change. The idea which constituted its most distinctive feature, and in the belief of many represents America’s most valuable contribution to the science of government, is being forgotten. Formed to be “an indestructible Union composed of indestructible states,” our dual system is losing its duality. The states are fading out of the picture. The aim of this volume is to point out the change and discuss some of its aspects. A few chapters have already appeared in print. "Our Changing Constitution" and "Is the Federal Corporation Tax Constitutional?" were published in the Outlook. "The Corporation Tax Decision" appeared in the Yale Law Journal. "Can Congress Tax the Income from State and Municipal Bonds?" was printed in the New York Evening Post. All of these have been more or less revised and some new matter has been added.

Law

Legal Flexibility and the Mission of the Church

The topic of sovereignty is contentious, and one of enduring interest. In a world of ever increasing economic globalisation, the rise of supranational regulation and the interconnected age of information and communication technology, among many other developments, have challenged the once exclusively held Westphalian model of sovereignty. The distinction between the internal aspect of sovereignty as expressed in terms of ultimate authority in a constitution, and the external aspect involving the relationship between sovereign states has been blurred. This has given rise to contemporary debates that explore the theoretical and practical implications of current challenges to established doctrines. Evidently no book could encompass the entirety of the contemporary debates on sovereignty. This is a book of essays focusing on sovereignty by a team of leading writers contributing domestic, European and international perspectives. The essays have been written at a time of very great testing of the institutional frameworks at every level: domestic, European, international or global.
The book illuminates the enduring strength of sovereignty as a foundational concept and the continuing widespread appeal of sovereignty as an idea.

**Human Rights and the Private Sphere**

**The Rehnquist Court and Criminal Justice**

Primary sources are an essential part of today's information-rich age. In Michael Nelson’s Sixth Edition of The Evolving Presidency, 60 documents help to anchor the ever-changing presidency in historical context. Students encounter a range of documents—from speeches and debates to letters, landmark Supreme Court decisions, and even tweets—that demonstrate how the presidency is shaped through both word and deed. Every selection has its own headnote that is carefully crafted to convey the significance of the document during its own time and its lasting effects on the office of the presidency. New to the Sixth Edition: This edition contains sixty documents, more than in any previous edition, including additions that reflect historically significant recent events, notably Donald Trump’s inaugural address and his employment of Twitter as a form of presidential communication. Two brand-new additions from the early days of Donald Trump’s presidency: The text of his pessimistic and populist inauguration speech, in which he promised a focus on “America first”; A compilation of 68 tweets from one week in July 2017, providing students with a context to analyze his unprecedented use of the social network to directly engage with citizens, colleagues in the government, and even other world leaders.

**The Routledge Companion to Philosophy of Law**

Political factors influence judicial decisions. Arguments and input from lawyers and interest groups, shifting public opinion, and the ideological and behavioral inclinations of the justices collectively influence the development of constitutional doctrine. In Constitutional Law for a Changing America, bestselling authors Lee Epstein, Kevin T. McGuire, and Thomas G. Walker draw on both political science and legal studies to analyze and excerpt cases, accounting for recent landmark court decisions, including key opinions handed down through the 2020 term. Updated with additional material such as recent court rulings, more than 500 supplemental cases, and greater coverage of freedom of expression, this Eleventh Edition will develop students’ understanding of how the U.S. Constitution protects civil rights and liberties. **The Changing Constitution**

Despite the staggering number of books related to the Northern Ireland political arena, most of the literature concentrates on only a few dimensions of the conflict and especially on constitutional policy and the on-going search for a resolution of the antagonisms. This original textbook, the first of its kind, serves as a comprehensive examination of the subject by exploring these topics and other important dimensions of politics which have been overlooked and undervalued. Politics in Northern Ireland is written by a team of distinguished academics, drawn from both within and outside Northern Ireland. It adopts the analytic tools of political science and brings a comparative perspective to bear on the politics of Northern Ireland. Early chapters examine the historic sources of conflict, analyze the period since the outbreak of the modern troubles, and discuss the differences between the communities. The book then examines the nature of parties, elections, and elective assemblies, before focusing on policy matters, such as fair employment, policing, and gender. In the concluding chapter, contributors consider relations with the Republic of Ireland and discuss events as current as today’s headlines, including the historic breakthrough in negotiations, the referendums, and the Assembly elections. The result is a well-rounded core text designed for the classroom, as well as for those interested in learning more about different facets of politics in Northern Ireland.

**Nursing Home Administration, Sixth Edition**

In 2004 six Pitcairn men were convicted of numerous offences against girls and young women, but
what right did the British government have to initiate these prosecutions? Was it fair given that no laws had been published on the island? Indeed, what law was there on this island? This book explores the wider issues raised by the Pitcairn case.

**Law Books in Print: Subjects**

This fourth edition offers an introduction to current British politics. It combines incisive and original analysis with clear and direct presentation, specially tailored to the needs of lecturers, teachers and students of British politics from A-level to University Second Year.

**The Constitution of Man Sixth Edition, Revised, Corrected, and Enlarged**

The sixth revised edition of Industrial Relations and Labour Laws captures the significant developments that have taken place in the realm of labour laws and industrial relations in the recent past. The most notable development in the legislative sphere is the amendment in the Industrial Disputes Act, 1947 in 2010. In the judicial sphere, there has been a marked shift in the approach of the Indian judiciary in the area of discipline and disciplinary procedure. Moreover, new norms/principles have been evolved to determine the classification of a person as a workman, provide relief in case of illegal/wrongful termination of service of workmen, determine notice period for strike/lock-out in public utility services and for regularization of services of daily, temporary, casual or contract workers. Extensively revised and updated in line with the changes in the law, this edition also gives a new and more holistic dimension to the subject of labour--management relations. Part I provides the contextual and constitutional framework of labour law and an overview of industrial relations. Part II deals with the trade union movement, employers’ organizations and laws relating to trade unions, collective bargaining, unfair labour practices and victimization. Part III deals with regulation of industrial disputes, persuasive, coercive and voluntary processes for settlement of industrial disputes, grievance procedure, government’s power of reference, laws relating to instruments of economic coercion, management of discipline, laws relating to change in conditions of service and lay-off, retrenchment, transfer and closure. Part IV examines laws relating to standing orders. Part V is on workers’ participation in management. This edition will serve as a comprehensive textbook for students of LLB, LLM, MBA, MSW, MPA, CS, and masters and diploma programmes in personnel management, industrial relations and labour law. It is indispensable for personnel managers, law officers, lawyers, trade union officials/members, officials of labour department and members of the labour judiciary.

**Industrial Relations and Labour Laws, 6th Edition**

Particularly valuable for both academics and practitioners, Human Rights and the Private Sphere: A Comparative Study analyzes the interaction between constitutional rights, freedoms and private law. Focusing primarily on civil and political rights, an international team of constitutional and private law experts have contributed a collection of chapters, each based around a different jurisdiction. They include Denmark, France, Germany, India, Ireland, Israel, Italy, New Zealand, the UK, the US, the European Convention for the Protection of Human Rights and Fundamental Freedoms and the European Union. As well as exploring, chapter by chapter, the key topics and debates in each jurisdiction, a comparative analysis draws the sections together; setting-out the common features and differences in the jurisdictions under review and identifies some common trends in this important area of the law. Cross-references between the various chapters and an appendix containing relevant legislative material and translated quotations from important court decisions makes this volume a valuable tool for those studying and working in the field of international human rights law.

**Constitutional Law for a Changing America**

This thought-provoking and engaging book provides an insightful examination of public law, exploring the complex relationship between institutions, individual and state, and offering both explanation and critical analysis. Public law is viewed against a backdrop of differing types of governmental power and the problems to which this may give rise, with a particular focus being given to recent changes in the

6th Edition

British constitution. By placing public law in a broader context, the book seeks to take a different approach from that of a general textbook, thereby offering a fresh view of the subject that is topical, relevant and interesting. Whether used as introductory reading or as an ongoing companion to a main course text, it will provide a valuable perspective that will be of great benefit to law students and politics students alike. This new second edition has been comprehensively revised and updated to reflect recent developments in the law. A companion website featuring updates can be found at: www.palgrave.com/law/syrett2e

Information Bulletin

Article 226 EC is the central mechanism of enforcement in the EC Treaty, and remains unchanged since the original Treaty of Rome. This book examines Article 226 in the light of contemporary debates including concepts such as democracy, legitimacy, good administration and good governance in the EU.

Understanding E-Government in Europe

The statutory duty of public service ombudsmen (PSO) is to investigate claims of injustice caused by maladministration in the provision of public services. This book examines the modern role of the ombudsman within the overall emerging system of administrative justice and makes recommendations as to how PSO should optimize their potential within the wider administrative justice context. Recent developments are discussed and long standing questions that have yet to be adequately resolved in the ombudsman community are re-evaluated given broader changes in the administrative justice sector. The work balances theory and empirical research conducted in a number of common law countries. Although there has been much debate within the ombudsman community in recent years aimed at developing and improving the practice of ombudsmanry, this work represents a significant advance on current academic understanding of the discipline.

Eternity Clauses in Democratic Constitutionalism

Sure to enhance its popularity among students and teachers, this is the new, expanded, and revised edition of Jowell and Oliver: The Changing Constitution. With new chapters on 'The European Community' by Vernon Bogdanor and 'International Human Rights Law' by Lord Lester QC, as well as revised chapters on all other topics, the book once again offers an up-to-date view of the state of the UK constitution and its relationship with the European Community.

Ratio and Voluntas

Nevada’s politics are in large measure the result of its turbulent history and harsh environment. Michael W. Bowers’s concise volume explains the dynamics of the state’s political formation process, which is strikingly unique among the fifty states. Even today, Nevada is unlike the other states in its politics and culture: economically right, yet libertarian and home to widespread gaming and a 24/7 industry. It has a high percentage of federally owned lands and one of the highest rates of urbanism in the United States, yet is often dominated by rural legislators. This comprehensive and insightful explanation discusses how Nevada’s history has shaped its political culture, and how its government operates today. The Sagebrush State serves as a highly readable and accessible text for the study of Nevada’s political history and constitution, which is a graduation requirement at the state’s colleges and universities. The sixth edition is updated through 2020 and includes the latest changes in the selection process of municipal court judges in the state, the resurgence of the Democrats after their losses in 2016, and the full text of the state constitution with extensive annotations of all amendments to the original 1864 document. It also examines the effects of the COVID-19 pandemic and the resulting economic downturn on the state’s budget.

The Ombudsman Enterprise and Administrative Justice

Since its first edition in 1985, The Changing Constitution has cemented its reputation for providing
concise, scholarly and thought-provoking essays on the key issues surrounding the UK’s constitutional development, and the current debates around reform. The sixth edition of a highly successful volume provides a thorough review of the latest developments in constitutional reform. It includes a new chapter on ‘Constitutional Watchdogs’ and expanded consideration of freedom of information and the control of public expenditure. Professors Jowell and Oliver have brought together nineteen expert contributors to offer an invaluable source of material and analysis for all students of public law.

Politics In Northern Ireland

This fully updated new edition of The New York State Constitution provides an outstanding constitutional and historical account of the state's governing charter. In addition to an overview of New York's constitutional history, it provides an in-depth, section-by-section analysis of the entire constitution, detailing the many significant changes that have been made since its initial drafting. This treatment, along with a table of cases, index, and bibliography provides an unsurpassed reference guide for students, scholars, and practitioners of New York's constitution. The New York State Constitution provides ready access to material that will help scholars, judges, lawyers, students and the general public to understand the historical background to the New York Constitution, the intent of the framers, and the evolution and current meaning of its provisions. The Oxford Commentaries on the State Constitutions of the United States is an important series that reflects a renewed international interest in constitutional history and provides expert insight into each of the 50 state constitutions. Each volume in this innovative series contains a historical overview of the state's constitutional development, a section-by-section analysis of its current constitution, and a comprehensive guide to further research. Under the expert editorship of Professor G. Alan Tarr, Director of the Center on State Constitutional Studies at Rutgers University, this series provides essential reference tools for understanding state constitutional law. Books in the series can be purchased individually or as part of a complete set, giving readers unmatched access to these important political documents.

Our Changing Constitution

Mit der vorliegenden Übersetzung dieses Klassikers liegt ein Hauptwerk der modernen politischen Philosophie erstmals wieder vollständig vor. Das zentrale Werk Jean Bodins bietet eine erste umfassende Theorie des zeitlichen Staats- und Souveränitätsdenkens.

Sovereignty and the Law

Capturing the authors’ excitement for constitutional law, this updated Tenth Edition of Constitutional Law for a Changing America shows students how judicial decisions are influenced by political factors—from lawyers and interest groups, to the shifting sentiments of public opinion, to the ideological and behavioral inclinations of the justices. Authors Lee Epstein and Thomas G. Walker show how these dynamics shape the development of constitutional doctrine. Known for fastidious revising and streamlining, the authors incorporate the latest scholarship in the fields of both political science and legal studies and offer solid analysis of both classic and contemporary landmark cases, including key opinions handed down through the 2017 session. Filled with additional supporting material—photographs of the litigants, sidebars comparing the United States with other nations, and "Aftermath" boxes that tell the stories of the parties' lives after the Supreme Court has acted—the text helps students develop a thorough understanding of the way the U.S. Constitution protects civil rights and liberties. Bundle with the Resource Center for FREE! Take your constitutional law class beyond the book with Epstein and Walker's newly redesigned Resource Center, featuring more than 500 excerpted, supplemental cases referenced in the commentary of the Constitutional Law for a Changing America volumes. The Resource Center offers a place for students to study core content with online quizzes and explore court cases. Instructors can find teaching materials, including hypothetical cases paired with discussion questions and writing assignments, moot-court simulations, test banks, and more. Ensure FREE access—use bundle ISBN: 978-1-5443-5051-6.

The Foundations of Public Law

This volume critically explores the contentions in the emerging debate surrounding new media
Where To Download The Changing Constitution
6th Edition

technologies and the extent to which they are challenging traditional political and government models. Examining a range of citizen/government interactions which together form e-government in different contexts, this book assesses the potential of new media technologies to facilitate new institutional patterns for governance and participation, as experienced primarily, but not only, across Europe. Analysing a range of challenges spanning from those of a technological and conceptual nature to those of a more political and legal nature, the authors scrutinise the central policies at governmental and organisational levels and consider the following questions: Is society driving or responding to e-government and is it ready to cope with it? What implications does e-government have for the power/democracy relationship? Is the technology right for e-government? What is needed to ensure government services are delivered optimally? How is e-government perceived and is it trusted? How are the sensitive issues of identity, privacy and social inclusion dealt with? How are management and safety dealt with when one considers issues such as activism, cyberterrorism, biometrics, and new implications for international relations? This comprehensive text will be of interest to students and scholars of public policy, politics, media and communication studies, sociology, law and European studies. It will also offer insights of relevance to practitioners and policy-makers in regional, national, and transnational governance, reform and innovation.

Constitutional Terminology in Transition

Law is at the heart of every society, protecting rights, imposing duties, and establishing a framework for the conduct of almost all social, political, and economic activity. Despite this, the law often seems a highly technical, perplexing mystery, with its antiquated and often impenetrable jargon, obsolete procedures, and endless stream of complex statutes and legislation. In this Very Short Introduction Raymond Wacks introduces the major branches of the law, describing what lawyers do, and how courts operate, and considers the philosophy of law and its pursuit of justice, freedom, and equality. In this second edition, Wacks locates the discipline in our contemporary world, considering the pressures of globalization and digitalisation and the nature of the law in our culture of threatened security and surveillance. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The Sagebrush State, 6th Edition

Justice, Legality and the Rule of Law

The New York State Constitution, Second Edition

Cases & Materials on Constitutional and Administrative Law provides you with a comprehensive selection of legal resources to accompany your studies. Extracts from leading cases, academic works, and political documents are drawn together with incisive author commentary and thought-provoking questions to highlight the historical debates and ongoing development of the subject. The authors take a critical look at the doctrines of constitutional law and the principles of administrative law, showing how the constitution operates in relation to Parliament, the Executive, and the citizen. The eleventh edition has been fully revised and updated with new extracts and commentary from recent case law and legislation, and also features a new chapter on devolution.
